

REMARKS

By this amendment, claims 64-84 are hereby canceled and replaced by new claims 85-111 to be examined during continued examination. These new claims are generally similar to the canceled claims in that they recite one or more player stations, a game computer and a control computer. However, these claims also recite other features of the invention that are not present in the canceled claims.

Applicant respectfully submits that the new claims are patentable and allowable over the references of record. Accordingly, favorable reconsideration and allowance of the application are therefore respectfully requested.

Respectfully submitted,

By: William A. Blake
